

“Image Mapping” editor for Common - Freestyle HTML Text pagelet

Editor’s requirements:

All browsers, which support “SVG” elements. They are:

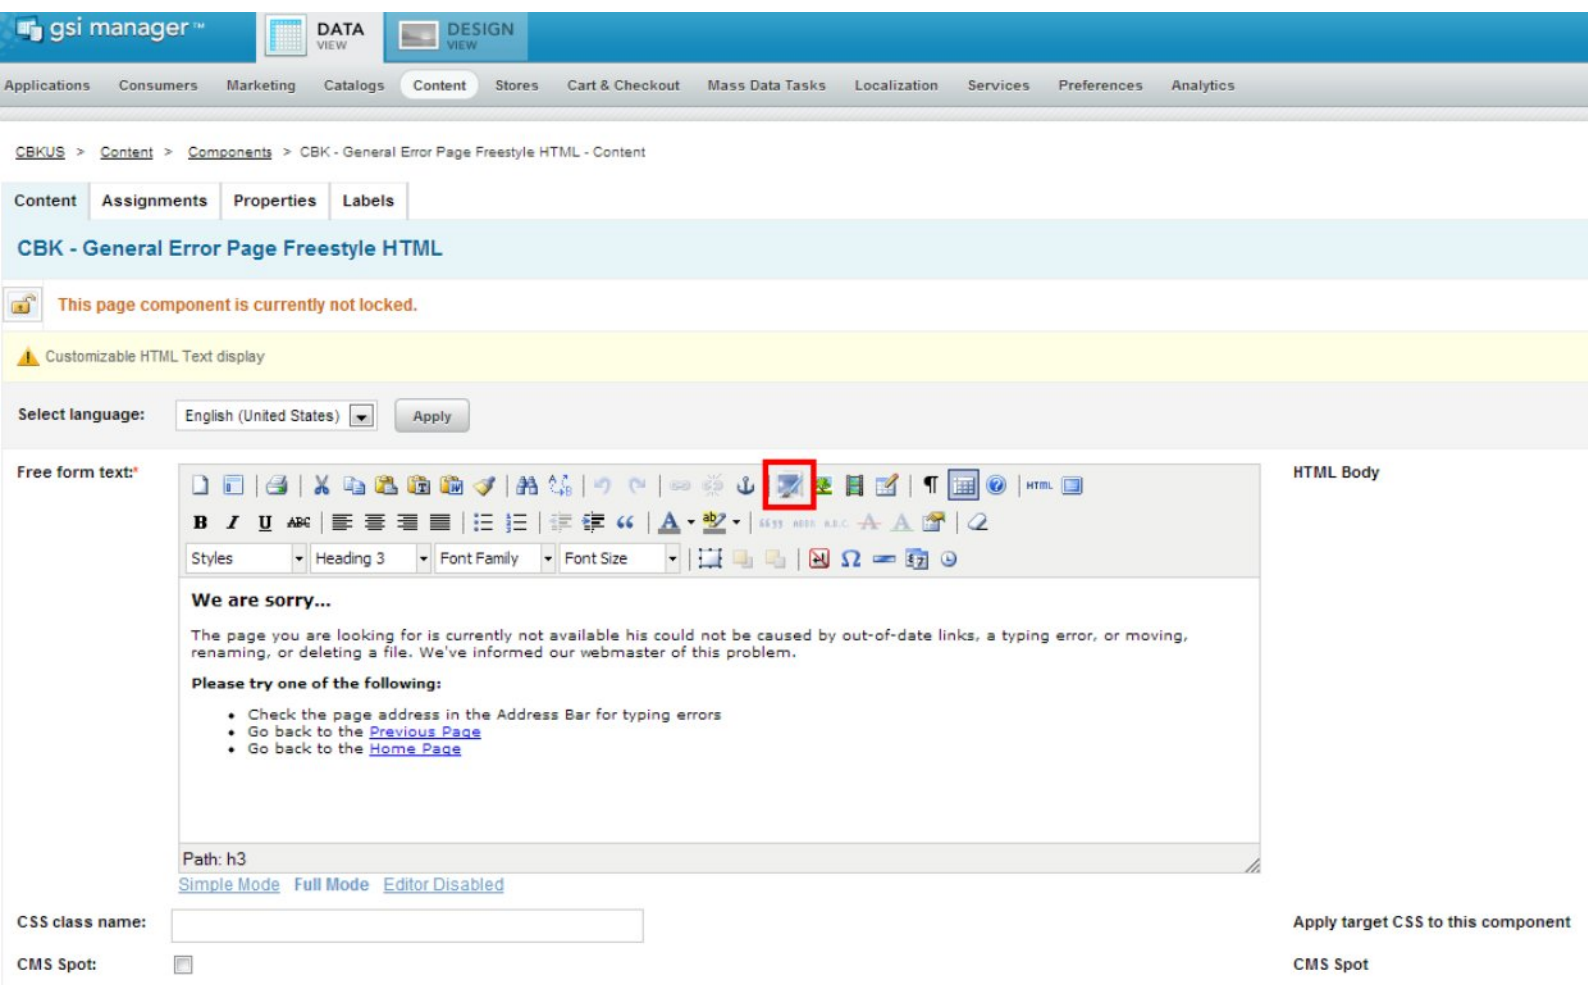

- Internet Explorer 9+;
- Firefox;
- Opera;
- Chrome;
- Safari.

If your browser doesn’t support “SVG” elements, you’ll get notification window.

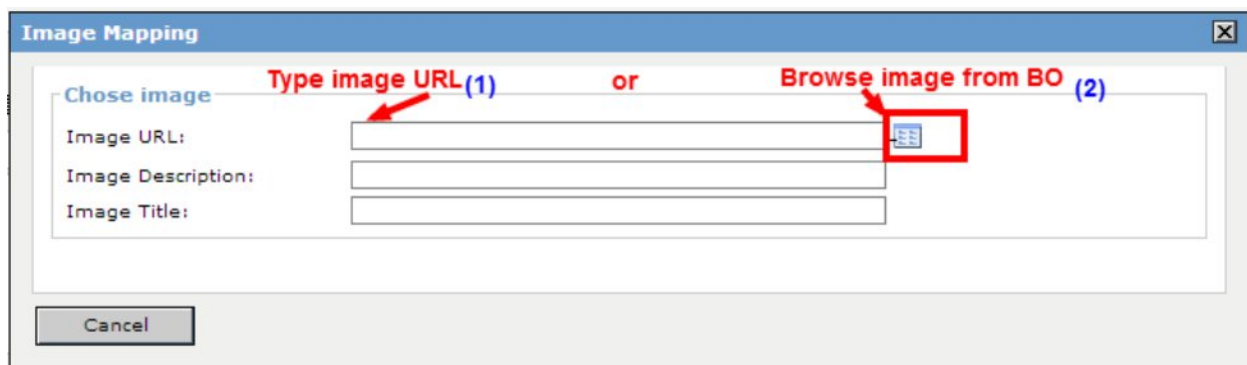

How to use:

1. You can run “image mapping” editor, using the  button on the TinyMCE toolbar:

The screenshot shows the GSI Manager interface. At the top, there's a navigation bar with tabs for Applications, Consumers, Marketing, Catalogs, Content (selected), Stores, Cart & Checkout, Mass Data Tasks, Localization, Services, Preferences, and Analytics. Below this, a breadcrumb trail shows: CBKUS > Content > Components > CBK - General Error Page Freestyle HTML - Content. The main content area has tabs for Content, Assignments, Properties, and Labels. A message states: "This page component is currently not locked." Below that, a yellow banner says: "Customizable HTML Text display". A language selector shows "English (United States)" with an "Apply" button. The main editor area is titled "Free form text:" and contains a TinyMCE toolbar. The "Image mapping" icon (a square with a diagonal line) is highlighted with a red box. The editor content shows a "We are sorry..." message and a list of suggestions. At the bottom, there's a "Path: h3" field and a "CSS class name:" field. On the right, there's a "HTML Body" label and a "CMS Spot" checkbox.

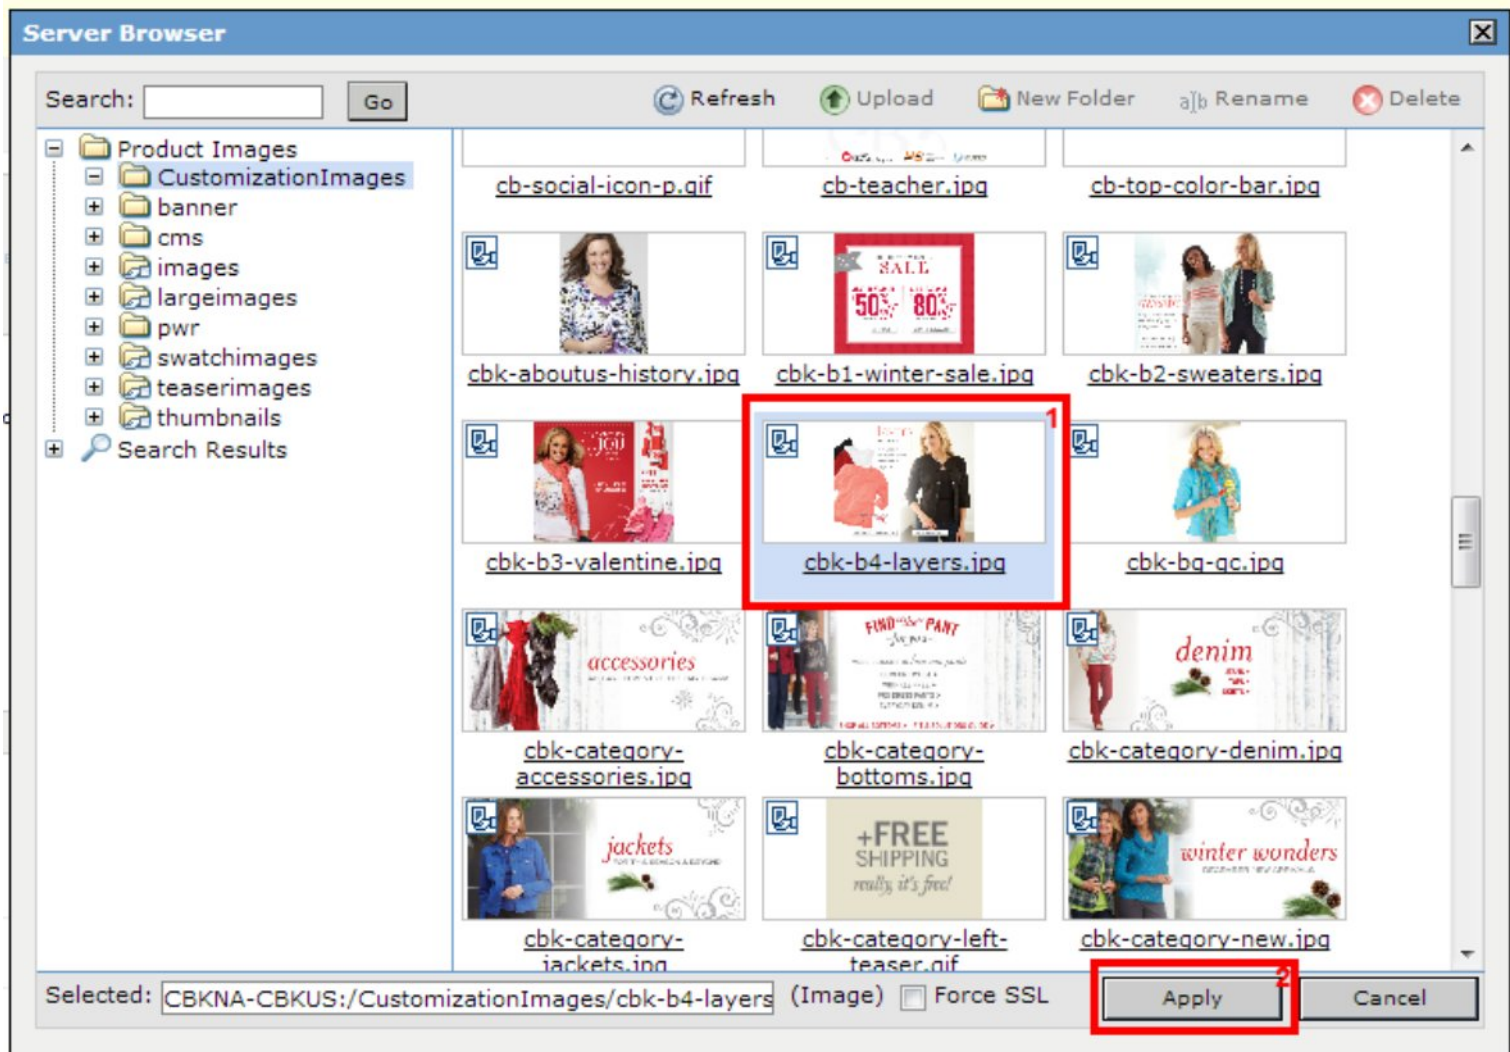

2. After that you'll get the dialog window, where you can type URL from keyboard, or chose your image from BO.

The screenshot shows the "Image Mapping" dialog window. It has a title bar with a close button. The main area is divided into two sections: "Chose image" and "Browse image from BO (2)". The "Chose image" section has a red arrow pointing to the "Image URL:" input field, labeled "Type image URL (1)". The "Browse image from BO (2)" section has a red arrow pointing to a button with a folder icon, labeled "Browse image from BO (2)". Below these are input fields for "Image Description:" and "Image Title:". At the bottom, there is a "Cancel" button.

- 2.1 If you choose first method, you just need to type image URL and click on blank area. If URL address typed correctly, image will loaded, otherwise you'll get red border around the URL input.

2.2 If you choose second method, you'll get a "Insert Image" dialog, where you can choose your image from catalog.

3. After that, you'll get your selected image with instruments for mapping image.
